AGENDA

- What is Business Continuity Planning
- When to utilize a Business Continuity Plan
- Components of a Business Continuity Plan
- Emergency Response Planning
- Gathering Contingent Worker Data

Business Continuity Planning

An outline of procedures and instructions an organization must follow in an emergency event to ensure continued operations and safeguard of services and resources

When to use a Business Continuity Plan

Cyber Attack

Health Crisis

Fire

Power Outage

Natural Disaster
Earthquake
Tornado
Storms

Snow

Components of a Business Continuity Plan

Systems

- Definition of all systems by importance
- Recovery/Fallback

People

- Workers
- Supply Chain Partners
- Impacted Users

REDUNDANCIES

Facilities

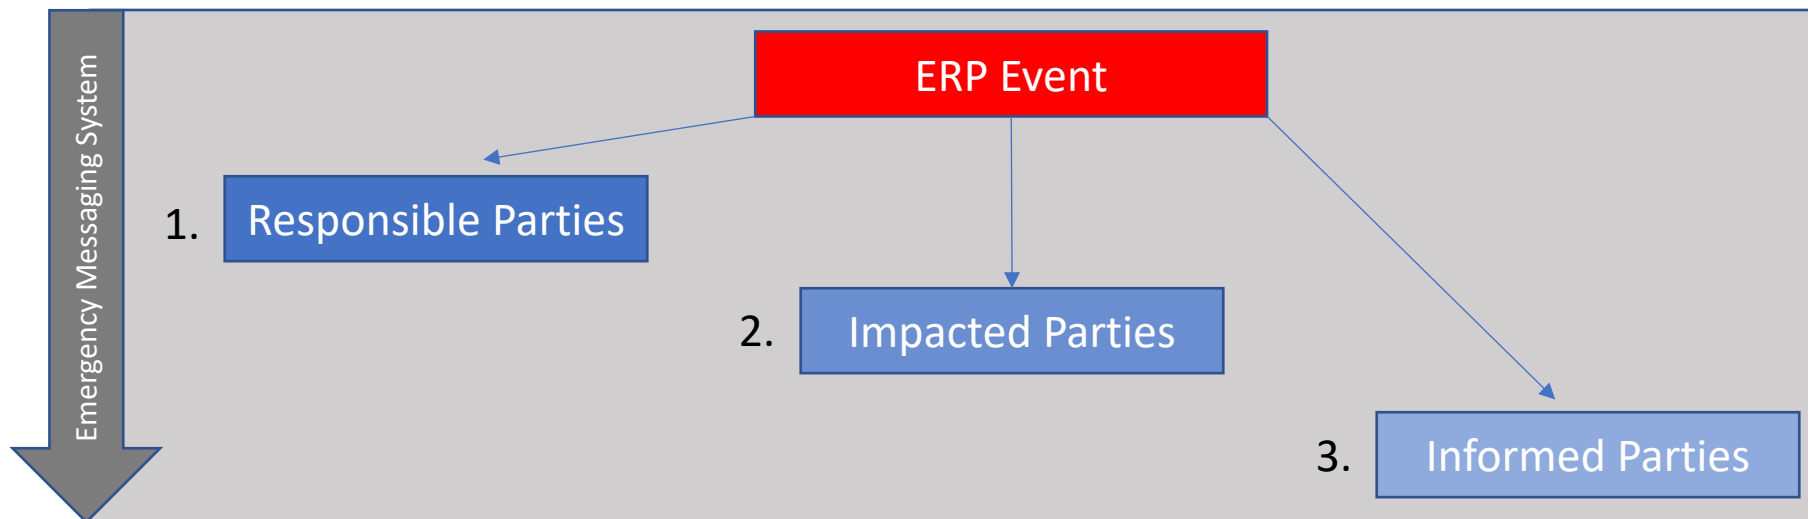

- Alternative worksites
- Remote work capabilities

Processes/Tasks/Functions

- Recovery Processes
- Critical tasks
- Temporary operating models
- Functional responsibilities

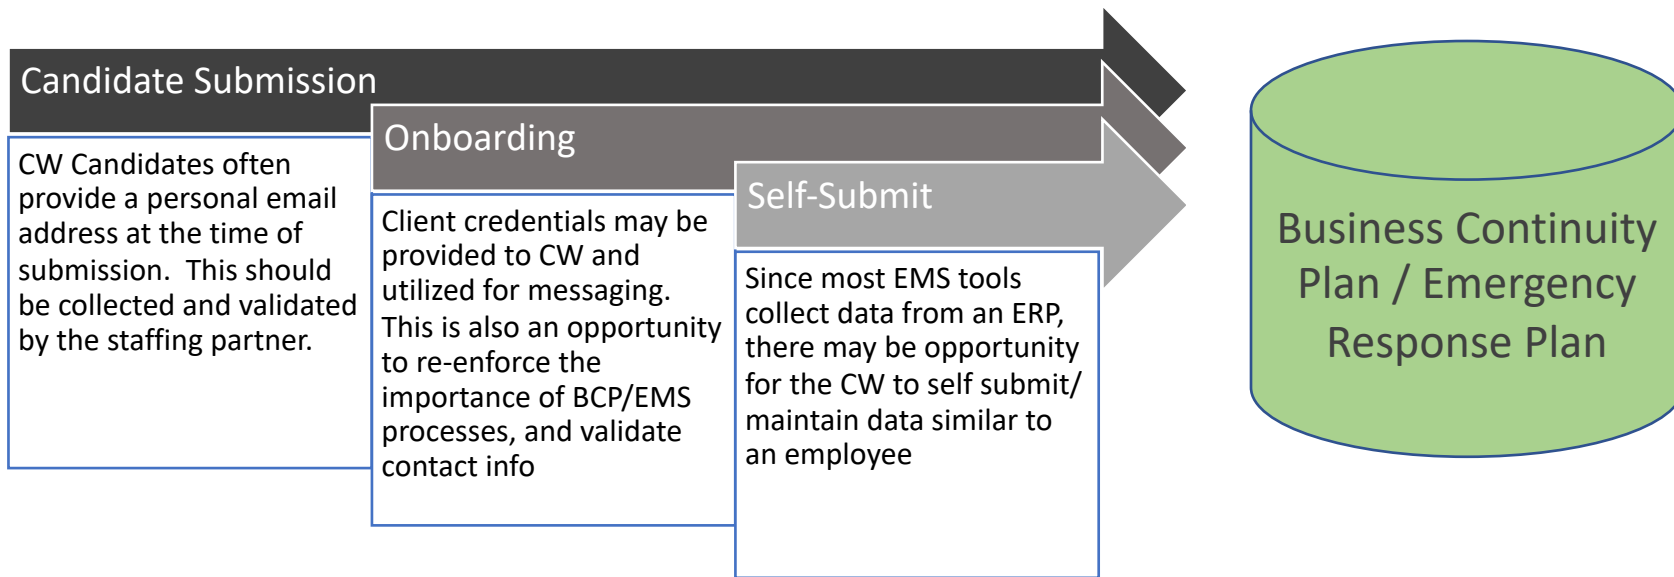

Emergency Response Plan

When an Emergency situation arises, an Emergency Response Plan will help to determine the severity of the situation and the appropriate way to move forward. An important component is the communication structure used to notify impacted/responsible parties.

Gathering Contingent Worker Data

Contingent Worker data may be challenging to obtain/maintain. There are several opportunities to capture this data through your Contingent Worker's lifecycle.

What next...

PHASE I

What: Health & Safety of Workforce and Business Continuity

When: Now or within next 2 weeks

What: Establish remote workforce and enable them via systems and tools

PHASE II

What: Economic Impact

When: Within next 30 days

What: Reduce operating costs

Phase III

What: Rationalize and Stabilize your Business

When: Within next 60 days

What: Define new operating plan

Time for Your Questions...

About Staffing Industry Analysts (SIA)

Founded in 1989, SIA is the global advisor on staffing and workforce solutions. Our proprietary research covers all categories of employed and non-employed work including temporary staffing, independent contracting and other types of contingent labor. SIA's independent and objective analysis provides insights into the services and suppliers operating in the workforce solutions ecosystem including staffing firms, managed service providers, recruitment process outsourcers, payrolling/compliance firms and talent acquisition technology specialists such as vendor management systems, online staffing platforms, crowdsourcing and online work services. We also provide training and accreditation with our unique Certified Contingent Workforce Professional (CCWP) program.

Known for our award-winning content, data, support tools, publications, executive conferences and events, we help both suppliers and buyers of workforce solutions make better-informed decisions that improve business results and minimize risk.

As a division of the international business media company, Crain Communications Inc., SIA is headquartered in Mountain View, California, with offices in London, England.
